# Homework for parents

Grown-ups

## Camera Work

text

Help your child take photos of numbers and complete the worksheet.

## Ten Down

text

Help your child count back in tens down each snake. If this is easy for your child you could try counting down from larger numbers and/or making your own number snakes.

## Storm & Seasickness 1

text

Enjoy watching this episode of The Number Crew with your child. You might want to pause it from time to time and check what your child understands.

Video Clip ▶

Calculations-3 video/activity/skill ▶

Spending 20p ▶

Money Spider Sums ▶

## Objectives

text

To begin to explore the relationship between addition and subtraction.

## Vocabulary

text

Addition; subtraction.

## Suggestions

text

Try using collections of physical objects (buttons, sweets, beans, etc...) to practise. Help your child to see that 2 buttons and 3 buttons makes 5 and if you take away 3 buttons you have 2 etc...
